

Lawn Edge is a coated non-woven separation fabric ideal for preventing invasive root growth from spreading into flower beds, paving and decorative areas in the garden.

Lawn Edge also protects patios, paved areas, asphalted surfaces as well as buildings and utility channels.

- Efficiently separates planted areas in gardens and parks
- The impenetrable green coated side is laid facing the roots
- Chemically inert, strong, spun material will contain root growth without damaging the plants
- Does not harm the surrounding plants and materials
- Easy to use and install with little preparation
- Once installed can be left maintenance free for many years

TECHNICAL PROPERTIES

Roll size: 0.2 x 10m
Thickness: 0.8 mm
Elongation: 50%
Puncture resistance: 580N
100% RECYCLABLE

Unit weight: 325g/m²
Tensile strength: 22 kN/m
Tear strength: 60 kg
