

DuPont™ Tyvek® ENVELOPES

ENVELOPES ARE MADE FROM DUPONT™ TYVEK® BRAND PROTECTIVE MATERIAL, A MATERIAL SO STRONG AND DURABLE IT EASILY WITHSTANDS EVEN THE MOST GRUELLING CONDITIONS.

Tyvek® envelopes are virtually indestructible because it isn't paper, it is Tyvek®! And when you're sending something important, that's exactly what you want your envelope to be. Tyvek® envelopes can be custom-designed to your exact specifications.

- Tyvek® is amazingly light significantly reducing your shipping and mailing costs.
- Tyvek® envelopes are unaffected by moisture, common acids or bases, they're ideal for long-term storage and archival purposes.
- Tyvek® envelopes are puncture and rip-resistant, it enables them to stand up to the sort of rough handling that envelopes can be subjected to during mailing, shipping and delivery.
- Tyvek® has a high strength-to-weight ratio. It is significantly lighter than paper and much stronger. Perfect when you're sending something heavy or bulky.
- The distinctive look of Tyvek® Envelopes instantly sets them apart from all other mail. The exceptional whiteness of Tyvek® enhances graphic images while supporting your company's professional image.
