

**WHEN PAPER LETS YOU DOWN... DUPONT™ TYVEK® LOOKS GREAT AND HAS MANY UNIQUE FEATURES**

Tyvek® is able to withstand heavy use, tough weather and constant handling. Tyvek® is a lightweight durable solution for every tag and label application. For intricate bar code and variable information printing, Tyvek® Brillion® offers a smoother, more uniform surface.

**Plant tags**

Durable and weather resistant. Tyvek® labels remain on the plants from the nursery and into the retail trade.

**Clothing, furniture tags**

Soft and strong. Tyvek® can be sewn or glued without losing strength. Labels last as long as the items they are attached to.

**Golf tags**

Moisture resistant. Tyvek® labels can be written on with pencil or pen, even in wet weather.

**Luggage tags**

Tough and puncture resistant. Tyvek® tags and labels withstand rough treatment of luggage handling systems.

**Warning labels**

Tear and abrasion resistant. With Tyvek® warning labels always protect the all-important details and specifications.

**Meat labels**

Food-contact approved in the US. Tyvek® contains no additives and as a result remains PH neutral when in contact with food.

**Wristbands, event security**

Safe, soft and secure. Tyvek® security tags cannot be transferred from one person to another without damage.

**Self-adhesive labels**

Ideal for food packaging, pharmaceutical products and electronic equipment and RFID labels.
